

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

Claims 1-5 are canceled.

6. (currently amended): A tire comprising a bar code label and a RFID tag,
wherein
the bar code label and the RFID tag are attached to a side of the tire,
the bar code label comprises a first sheet member and a second sheet member,
a front surface of the first sheet member is provided with a bar code,
a rear surface of the second sheet member is provided with an adhesive layer,
the RFID tag is interposed between the rear surface of the first sheet member and
the front surface of the first sheet member, and
the adhesive layer functions as an adhesive when being attached to the tire and exhibits a
bonding effect by curing~~A tire having the RFID-incorporating bar code label of claim 1 bonded~~
~~to the side face.~~

7. (original): The tire according to claim 6, wherein the RFID tag-incorporating bar code label is bonded by an adhesive having the function of a pressure sensitive adhesive.

8. (previously presented): A method of managing a tire by reading tire information written to an RFID tag bonded to the tire of claim 6.

9. (previously presented): An RFID-incorporating bar code label comprising an RFID tag which is incorporated in an inside of a bar code sheet layer having a bar code on a front surface and an adhesive layer,

wherein the RFID tag is interposed between at least two sheets constituting the bar code sheet layer.

10. (new) The tire according to claim 6, wherein a thickness of the second sheet member is 0.25 mm – 0.35mm.

11. (new) The tire according to claim 6, wherein the RFID tag includes a dipole antenna.
